Software Requirements Specification (SRS)

Project Title: LOST AND FOUND WEBSITE: A Dedicated Website for Lost and Found for Emilio Aguinaldo College - Cavite

Stakeholders

- **User** (*Students*) - Create, edit, and delete their own lost-item posts and comments, view found items, and submit claim requests.
- **Moderator** (*EAC Staff*) - Post found items, monitor discussions, remove inappropriate content, verify claims, and mark items as returned.
- **Admin** (*Designated EAC Personnel*) - Manages accounts and assigns or removes moderator roles.

Functional requirements

- **FR1**: The system shall allow students to register an account with a default student role and allow students and moderators to log in and log out.
- **FR2**: The system shall allow users to view all lost-item and found-item posts.
- **FR3**: The system shall allow students to create, edit, and delete their own lost-item posts.
- **FR4**: The system shall allow students to add and delete their own comments on lost-item posts.
- **FR5**: The system shall allow moderators to create, edit, and delete found-item posts.
- **FR6**: The system shall allow moderators to remove inappropriate posts and comments.
- **FR7**: The system shall display collection locations and instructions for claiming found items.
- **FR8**: The system shall allow students to mark their lost-item posts as Recovered.
- **FR9**: The system shall allow moderators to mark found-item posts as Returned.
- **FR10**: The system shall allow moderators to record an item as returned after ownership has been verified personally at the designated EAC office.
- **FR11**: The system shall restrict users to managing their own posts and comments.
- **FR12**: The system shall restrict moderator functions to authorized moderator accounts.
- **FR13**: The system shall display the status of lost and found items.
- **FR14:** The system shall direct students and moderators to their respective dashboards after login.

Non-functional requirements

- **Usability** - Students and moderators shall be able to navigate the website using clear menus, labels, and buttons.
- **Performance** - Main pages shall load within 3 seconds under normal internet and server conditions.
- **Security** - Passwords shall be stored as secure hashes. Only authorized moderators shall access moderator features.
- **Privacy** - Lost-item posts shall show only the student's display name as identification. Email addresses and student ID numbers shall not be publicly displayed.
- **Compatibility** - The website shall display properly and remain usable on desktop and mobile web browsers.
- **Reliability** - Posts, comments, and claim updates shall remain saved after refreshing the page or

logging out.

- **Maintainability** - The code shall be organized into separate files and folders so developers can easily update and fix it.

User stories

- US1: As a user, I want to view current lost items that are probably mine or someone I know.
- US2: As a moderator, I want to monitor proper use of the website and store items that are being lost and found in EACC campus.
- US3:As an admin, I want to manage accounts and assign/remove roles to moderators.

Scope

In-Scope:

- User registration with a default student role
- Login based on assigned roles
- Browsing lost and found items
- Allowing students to create, edit, and delete their own lost-item posts.
- Allowing students to add and delete their own comments on lost-item posts.
- Posting and managing found items by moderators
- Removing inappropriate posts and comments by moderators.
- Displaying collection locations and instructions for claiming found items
- Updating lost-item posts to **Recovered** and found-item posts to **Returned**.

Out-of-Scope:

- Online claiming and proof-of-ownership checking.
- Automatic verification of EAC enrollment.
- Private messaging
- Item delivery
- Separate mobile app
- An item search bar feature
- Item categories
- Admin Panel (*"Moderator Roles" are assigned directly in the data*base)

Requirements prioritization

Priority Level	**Requirement ID**	**Description**
High	FR1, FR2, FR3, FR5, FR7, FR8, FR9, FR11, FR12, FR13, F14	Login, viewing and managing items, claiming instructions, status updates, and access restrictions.
Medium	FR4, FR6	Comments on lost-item posts and removal of inappropriate content.
Low	NFR: Finalization	Reliability, and maintainability of the system.
